**Comment lire les codes décors ?**  
**How to read the decor codes ?**

Tous les codes respectent un format de type :  
All codes rely on a specific format type :

**XX1X**  
X : Lettre / Letter  
1 : Chiffre / Figure

Par exemple / For example: **B00B - Bocage blanc**

(1) Les décors «avec répétition» offrent la possibilité de reproduire le décor sur la totalité de la largeur de l'application, sans discontinuité de motif. Les décors «sans répétition» peuvent également être utilisés côte à côte mais sans répétition ou continuité du motif. Ces décors sont au format 3050 × 1300 mm sans bords perdus. Les formats Portes 2150 × 970 mm et 2450 × 1240 mm possèdent des bords perdus mais sont «sans répétition».

*Decors "with a repeat" or "repeatable decors" offer the possibility to reproduce the decor over the complete application width, without pattern discontinuity. Decors "without repeat" can be applied side by side but without pattern repetition or continuity. These decors are delivered in 3050 × 1300 mm without bleed area. Door size 2150 × 970 mm and 2450 × 1240 mm have a bleed area but are "without repeat".*

(2) Sur les décors «avec répétition», un bord perdu a été prévu dans la largeur du panneau pour réaliser une connexion précise et optimisée entre deux panneaux. Ces décors sont au format 3050 × 1320 mm avec un bord perdu de 20mm pour assurer un format utile de 3050 × 1300 mm.

*On "repeatable" decors, a bleed area was placed on the panel width to achieve a precise and optimized connection between the panels. These decors are delivered in 3050 × 1320 mm with a bleed area of 20 mm ensuring a useful format of 3050 × 1300 mm.*

\* Pour les décors «fresques», par exemple les déployés sur deux panneaux, les panneaux gauche et droit doivent être utilisés ensemble.

*For fresco i.e., unfolded image over two panels, left and right panels must be used together.*
