MAKE IT WONDERFUL

FRANKE

THE EASIEST WAY TO ENJOY FILTERED WATER

Thanks to the patented filter technology, the Franke Vital Capsule Filter System delivers refreshing drinking water more simply, quickly and reliably than ever before. It delivers the most wonderful tap water you've ever tasted. Developed in Switzerland, simple to use and impeccably designed, it's the most advanced water filter system in the world.

WHERE THE MAGIC HAPPENS

The best water filter in the world is also the smallest. That's something of a marvel, given what's inside. It is the first system ever to combine activated carbon with a high-tech membrane and turns 500 litres of tap water into pure refreshment.

Quality and Performance
made in Switzerland

CLEAR-AS-WATER BENEFITS FOR A CLEANER LIFESTYLE

CONVENIENT & EASY TO USE

The system is so compact that no complicated installation under the sink is required. Simply order capsules conveniently online and enjoy superb water day after day.

HYGENIC & SAFE

The flow of water from the filter straight into the glass and the combination of activated carbon and a high-tech membrane ensure supreme water quality. The filter removes bacteria, viruses, pesticides, hormones and microplastics. Not only does tap water taste better, it is also much healthier.

STYLISH & ICONIC

The Franke Vital Capsule tap look stunning in any kitchen. An iconic space-saving design, available in various designs and colours.

LIKE A LITTLE WONDER

Our water filter is not only the smallest in the world, but also the first to combine activated carbon with a bionic membrane. Modelled on nature, developed in Switzerland.

Quality and Performance

made in Switzerland

We're confident, so you can be too!

We guarantee 5 years on working parts and 1 year on finish.

3 year guarantee on battery that indicates LED

1. PRE-FILTER

The pre-filter is the first line of defence, eliminating coarse contamination. Larger particles are filtered out and captured.

2. MEMBRANE

Nanotechnology makes it possible: the 0.06 mm thick membrane, enclosed in a fine nylon mesh, filters even bacteria from your drinking water.

3. ACTIVATED CARBON FILTER

Activated carbon removes dissolved impurities (e.g. chlorine) and impurities. The underlying technology is a natural physical process that has been proven over decades.

4. WATER FLOW

First through the pre-filter, then through the membrane, finally through the activated carbon and filtered straight into the glass. The Vital Capsule prevents cross contamination between filtered and unfiltered water.

REORDERING

When the LED light turns red, this is an indication that the filter has to be changed. New filter capsules can simply be reordered online via:

central-servicesuk.co.uk

FILLED WITH MANY ADVANTAGES

Removes 99.9%
of bacteria

Removes 99%
of viruses
