minerva® Amazonia Brown worksurface

Solid performance...

minerva® solid worksurfaces are manufactured to a full 25mm thickness with colour throughout.

Welcome to **minerva**®: a practical and solid kitchen worksurface material manufactured using state-of-the-art technology to deliver a luxurious appearance, cool pleasing touch and robust performance day in, day out. Such is the enduring quality of **minerva**® that we guarantee its quality against manufacturing defects for ten years.

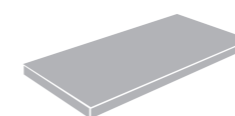

Whether you aspire to sweeping curves or a two-toned breakfast bar, contemporary linear sink modules or the nostalgia of a traditional Belfast sink, **minerva**® offers the flexibility to meet all your design needs without incurring the cost of specialist installation teams to make your dream come true.

Please take a look through our brochure and contemplate some of the possibilities. Your imagination will provide the rest!

...total design flexibility

FACTORY FINISHED EDGES READY FOR FITTING

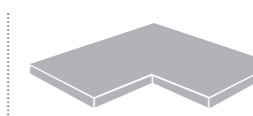

All **minerva**® worksurfaces are supplied ready for installation with smooth factory machined edges.

No need, therefore, for time consuming and messy preparation work as edges are finished and ready for fitting.

FASTER LEAD TIMES, QUICKER INSTALLATION

minerva® cuts the wait and cost usually associated with choosing solid worksurfaces, saving you time and money.

IMPERCEPTIBLE, SEAMLESS, SOLID JOINTS

Whether you are using the services of a professional installer or doing the job yourself, **minerva**® is designed to deliver the best possible aesthetic results.

PRE-FABRICATED FEATURES

Undermounted bowls teamed with designer drainer grooves, breakfast bars, splashbacks and upstands, these are just some of the added attractions of choosing **minerva**® for your kitchen.

CUSTOM SERVICE

Our Custom Service department specialises in producing the extraordinary.

minerva® Peak Stone worksurface

Factory finished edges... ready for fitting

minerva® Caramel Crunch worksurface

minerva® Desert Rock worksurface

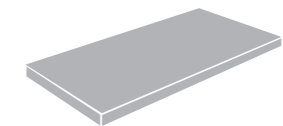

minerva® Ice Crystal - stylish upstands are hygienic and easy to clean

All minerva® worksurfaces are supplied with factory machined edges.

We cut and finish the worksurface edges and tops for you, so they are delivered ready to fit, saving you valuable installation time and money.

No need to spend time on site making sure the finished edges are square and presentable, it's all been done for you.

minerva®

FITTING PERFECTION

minerva® Amazonia Brown - infinite design options

minerva® Ice Crystal - smooth factory finished edges saving installation time and money

minerva® Caramel Crunch - worksurfaces can be designed with concave or convex curved corners

minerva® Black Granite and Carrara White

Faster lead times... quicker installation

With **minerva®** there is no waiting for complicated templates to be produced and potentially expensive delays.

All **minerva®** worksurfaces are factory-finished and delivered ready for installation...it's that quick, it's that simple.

The versatility of **minerva®** allows for any shape of your choice. Both concave and convex curved corners can be easily cut on-site.

minerva® White worksurface with upstand delivers clean flowing lines

Imperceptible seamless solid joints

Clean flowing lines with the look and cool touch of solid stone.

minerva® Carrara White is a veined décor which reflects the natural appeal of stone. Whilst each joint is seamless and hygienic, there may be a visual difference when two worksurfaces are joined as the veining on each worksurface is unique.

minerva® Grey Crystal with the cool touch of solid stone

minerva® Sparkling White is reassuringly elegant with just the right amount of sparkle

Not only beautiful looking, but with our renowned jointing strength **minerva®** is rock solid! Nor are any special preparation procedures necessary to achieve beautifully imperceptible, seamless joints.

FITTING PERFECTION

minerva Carrara White with pre-fabricated 1.5 bowl acrylic sink

minerva Copper Fleck work surface

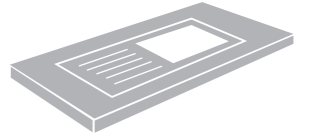

minerva Fossil - factory machined drainer grooves add depth and dimension

Pre-fabricated features

With fabrication built-in, **minerva**® saves valuable time when it comes to preparation and installation.

All working surfaces and edges are factory machined and finished, which means there's no time wasted on site.

Select an undermounted stainless steel or acrylic sink from the **minerva**® collection. Factory pre-fabricated for easy and quick installation.

minerva Amazonia Brown work surface

minerva Copper Fleck – factory machined drainer grooves and recessed drainer area. Whilst **minerva**® sink modules are made from a solid piece of material, the recessed sections may have a slightly different pattern on some décors due to the spread of the coloured chips

FITTING PERFECTION

minerva® Desert Rock worksurface

minerva® Cocoa Brown - design ideas that flow freely

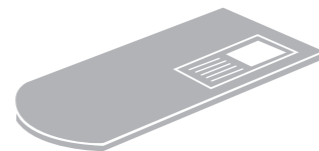

minerva® Amazonia Brown

minerva® Nimbus Grey with break-front hob

Custom Service

Our Custom Service department specialises in producing the extraordinary.

minerva® worksurfaces are designed to meet the needs of the most discerning design requirements.

However, if your kitchen screams for something out of the ordinary, we offer the minerva® Custom Service. This department specialises in producing truly bespoke surfaces for the extraordinary project.

Ask your kitchen designer how minerva® Custom Service can turn your design ideas into glorious reality.

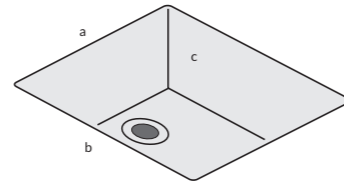

minerva® ...sink modules, it's your choice

All minerva® sink modules are supplied as either left or right hand bowl which must be specified at the time of order. Images shown are left hand bowl. Both stainless steel and acrylic bowls are suitable for use with waste disposal units. Only stainless steel bowls are suitable for use with instant hot water taps. Allowing instant hot water taps to run freely into acrylic bowls over a period of time may result in superficial crazing of the acrylic surface. Whilst minerva® sink modules are made from a solid piece of material, the recessed sections may have a slightly different pattern on some décors due to the spread of the coloured chips.

single bowl

minerva® single bowl...650mm deep with recessed drainer area. Pre drilled for tap and pop-up waste. Will fit into 500mm base cabinet. Includes brushed stainless steel bowl, pop-up waste, fitting clips and sealant.

All the colours you want!

Fourteen stunning worksurface finishes which collectively represent a wonderfully varied palette of possibilities for you and your new kitchen.

Whether you decide on the drama of Black Granite, the classical appeal of marble epitomised by Carrara White, the cool crispness of Ice Crystal, or any of the other superb finishes in the **minerva**[®] range, you can rest assured that your kitchen will lift your spirits for years to come.

- Price Group 1 (WH) White
- Price Group 2 (IC) Ice Crystal, (FO) Fossil, (AB) Amazonia Brown, (CB) Cocoa Brown, (PS) Peak Stone, (NG) Nimbus Grey, (BG) Black Granite, (GC) Grey Crystal, (CC) Caramel Crunch,
- Price Group 3 (CA) Carrara White*, (CF) Copper Fleck, (DR) Desert Rock*, (SW) Sparkling White

*Each of these worksurfaces are unique, reflecting the natural appeal of marble and stone.

Whilst **minerva**[®] sink modules are made from a solid piece of material, the recessed sections may have a slightly different pattern on some décors due to the spread of the coloured chips. Due to the nature of the particulate used in producing **minerva**[®] Copper Fleck solid worksurfaces, it is possible that some slight unevenness may be felt in the finished surface. This is quite normal and does not affect the use of the worktop.

||| Factory finished edge — Unfinished edges

minerva® solid surfaces come with our 10 year guarantee* and are supported by the FIRA Gold Award for product excellence – this is testimony to the fact that we use only the most superior materials and our products are constantly tested to ensure they are manufactured to the highest standards.

minerva® has been developed for the domestic environment, especially the kitchen. Although no 'special' maintenance is needed, we recommend the following is adhered to, as prevention is always better than cure.

Routine cleaning

minerva® does not require any specialist cleaning regimes, most dirt and light residue will easily wipe off with a damp cloth and soapy water. The worksurface should then be rinsed with clean water and wiped dry. Persistent marks can be removed by using a mild abrasive cleaner, but harsh scouring powders should be avoided. If in doubt, consult our care and maintenance guide.

Heat

minerva's surface will withstand heat better than many alternative surface materials. However, all hot pots, pans and other heat generating devices should always be placed on a trivet or worktop protector rods to prevent extreme heat having prolonged and direct contact with the surface. Boiling water and cooking splashes do not harm the surface.

Staining

minerva®, unlike marble and granite, is not porous and will resist most household chemicals including alcohol and cosmetics, however, some chemicals and strong dyes can cause damage and discolouration. If spillage occurs, wipe off immediately and rinse area thoroughly.

Standard woodworking tools

minerva® can easily be cut on site ready for jointing using standard woodworking tools and equipment.

Accessories

- **minerva**® jointing kit (75ml adhesive sachet, sanding discs and grey abrasive pad to finish)
- Individual 75ml adhesive sachet
- Installation, care and maintenance DVD
- Stainless steel finish worktop protector rods (pack of 6)
- **minerva**® care kit (countertop cleaner, ergonomic foam sanding pad, microfibre cleaning cloth, 320 grit and 500 grit sanding discs and grey abrasive pad)

Minor scratching

Kitchen utensils and crockery (particularly the unglazed bases) can sometimes cause scratches that will be more evident on darker colours. The surface can be damaged by scratching or cutting with knives, so the use of a cutting board is essential. Any minor scratches can easily be removed using the grey abrasive pad and other items from the **minerva**® care kit. Please refer to the care and maintenance guide.

minerva® care kit

To help maintain your **minerva**® worksurface, a care kit is available from your retailer. This kit contains all you need to make minor repairs to the surface and a special cleaner that helps to maintain, protect and build up lustre, particularly on darker colours.

Our commitment to customer service

When you choose **minerva**® you do so secure in the knowledge that you are buying a proven, reliable product; a product that is truly at the forefront of modern worksurface technology.

Our Customer Care department is on hand to offer you help, support and advice all year round.
